

Accessibility Design Guidelines

Our website has been designed with the following accessibility guidelines in mind:

- The standard font used throughout the site has been chosen to be easily legible.
- Wherever possible, we use live text instead of graphics to reduce the download time of pages and increase your control.
- No information is exclusively conveyed using color. This doesn't mean that colors are not used to organize information; instead it means there are also other, non-color dependent ways of doing this.
- All images and hyperlinks, where appropriate, have an alternative text attribute. This means when an image or hyperlink is conveying important information its content is described with an alternative text.
- We have attempted specifically to comply with Section 508 referring to website accessibility standards.
- If you have difficulty accessing the site or have any comments or feedback, please do not hesitate to contact us.

Accessibility Design Guidelines

Many popular browsers contain built-in accessibility tools.

- [Internet Explorer Accessibility Information](#)
- [Firefox Accessibility Information](#)

Adobe Acrobat

Adobe Acrobat is required to view and print PDF documents that appear on this website.

- To download this program for free, visit the [Adobe website](#).
- To read PDF documents with a screen reader please link to the [Access Adobe website](#) which provides useful tools and resources.
